## **DETAILED ACTION**

### ***Election/Restrictions***

Applicant's election with traverse of Group I, claims 12 and 17 in the reply filed on 4/10/2007 is acknowledged. The traversal is on the ground(s) that applicant submits that Groups I and II have in common the blood pressure lowering activity of the claimed materials. This is not found persuasive because the application does not have a special technical feature as addressed in the restriction requirement.

Accordingly, claims 13-16, 24-36 are withdrawn from further consideration as being drawn to non-elected subject matter.

The requirement is still deemed proper and is therefore made FINAL.

***Claim Rejections - 35 USC § 102***

Art Unit: 1655

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 12 and 17 are rejected under 35 U.S.C. 102(b) as being anticipated by Barney et al. or Tobe et al.

Barney teaches that isohumulones such as tetrahydroisohumulone, Rho-isohumulone, Rho-isoadhumulone, etc. are orally administered to the oral cavity, see col. 1, lines 40-50, col. 2, lines 20-30, col. 4, lines 25-35, example 3.

Tobe teaches that isohumulone is administered to a human, see claim 1.
